Promoting Dignity, Health, Protection and Social Inclusion for Older Persons in Zambia

About AGED-CARE FOUNDATION

AGED-CARE FOUNDATION is a registered non-profit and charitable organization dedicated to promoting the welfare, dignity, health, protection, and social inclusion of older persons in Zambia. The Foundation was established to address the growing challenges faced by vulnerable elderly persons, including poverty, neglect, abandonment, poor health, social isolation, abuse, and inadequate access to support services.

The Foundation works with communities, healthcare institutions, correctional facilities, government agencies, development partners, faith-based organizations, and the private sector to improve the quality of life of older persons through sustainable and evidence-based interventions.

AGED-CARE FOUNDATION recognizes that older persons are custodians of knowledge, culture, and community values. We therefore strive to ensure that every older person enjoys a life of dignity, respect, security, inclusion, and wellbeing.
